WELCOME TO YOUTHELEGRAPH... by Idoia

5th December
Voluntarism's day

Welcome to our newsletter, a little background document created with the idea to publicize our activities as volunteers in S & G and Youth Caravan.

UN Resolution 1985 proclaimed on 5 December as International Volunteer Day, a tribute to the efforts of thousands of volunteers in different corners of the world who participate in solidarity activities. In Youth Caravan we are 11 young people from different European countries (France, Italy, Hungary, Romania and Spain) that we choose the Turkish capital for our EVS. Our main objective here is to provide information to young people about the possibilities of living experiences abroad. Like us. With our youth caravan we traveled thousands of miles, we visited many cities and we have lived great experiences across Turkey. Hopefully, with Youthelegraph, we can create a link, connecting our activities with all of you. Until next month ... Peace and love!

"You must become in the change you wish to see in the world" Mahatma Gandhi

Seven values of voluntary work:

- Sincerity
- Sensitivity
- Serenity
- Humility
- Perseverance
- Courage
- Ability to give

WHAT EVS MEANS FOR YOU... by Florin

It means multidevelopment. And when I say multidevelopment I'm referring to personal development that can include personal knowledge about yourself, knowledge about others, so it may be a multiknowledge experience.

A very important part of my Evs is learning about history, the true history of people, of the world, by meeting persons from different countries who can tell you real stories about some important historical events that happened in their life, or their version of the truth, regarding history.

Also it is an amazing out step from your normal environment, usual parameters, that can offer you a totally new perspective of the world, and in this way maybe get out from some stereotypes that are sometimes so unavoidable. An exciting part is multicultural part, because with EVS you have the opportunity to discover the culture of a country, of people directly from the source... You can feel it in the air, you can take and keep, you can discover... in this way I am saying Turkish food probably one of the most creative food in the world, baklava can make your day, and Turkish music full with passion keeping in her the essence of life. Affedemem, Passiflora, 2 songs from my favorite artist singer Deniz Seki. EVS in Turkey it is still surprising...

FUN 'EVS

Judith Schunk, (from Germany) is an EVS in the organization Genç gelişim derneği in Ankara. Here, she is having fun with children playing the game 'Human knot'.

Do you know what is 'give me three'?

Please send your answer to the following e-mail address:

ig.youthcaravan@gmail.com and the next month you will know the riddle.

NEXT MONTH... CARAVAN ON THE ROAD!
